COLEMAN
MIDDLE SCHOOL

Coleman Middle School

Coleman scholars are excited about the upcoming Super Bowl. They held a quiz bowl where they answered questions in complete sentences to practice professional expression. They also incorporated Roman Numerals into the discussion, emphasizing their relevance in daily life.

Leland School Park

Leland scholars used art integration to continue engaging with the book they are reading during book club. After reading the book, scholars acted out what they read to tell the story of the two main characters.

Scholars also got in one last practice to prepare for the drone competition.

O'Bannon Middle School

Mrs. Kirk brought fun to her math lesson by working with scholars to use measuring tape to calculate the circumference, area, etc., of common household items like clocks.

Scholars got in one last practice with Mr. Rodney before the Regional Aerial Drone Competition on Saturday. Some were nervous, while others dug in and honed their skills.

T.L. Weston Middle School

Weston scholars partook in healthy competition by completing math mazes problems. They solved the problems to be able to race to the end of the sheet.

Scholars also spent time with Mr. Rodney, working to ensure they are ready to win at our drone competition.

PARENT INFORMATION

Thank you in advance to those of you who plan to come out and support our scholars during the Mississippi Delta's first Regional Drone Competition.

DATES TO REMEMBER

- Aerial Drone Competition – Saturday, February 8, 2025
- President's Day – February 17, 2025
- Full STEAM Ahead Field Trip – Saturday, February 22, 2025
